

Freestanding Washer Dryer

BWD384W2

FEATURES

- Steam
- Tub bade with Recycled Pet Bottles
- DrumClean funktion
- 10 Years Motor Warranty
- Wool Program

Kar fremstillet af genbrugte plastflasker

Blombergs vaskemaskiner har en ydre tromle lavet af genbrugte PET-flasker. I alt blev der brugt over 505 tons genbrugsplast til dette formål i moderselskabets produktion i 2021.

Maskinrens

Med tromlerens programmet får din vaskemaskine en grundig rensning i 70 grader varmt vand og et højere antal vaskebevægelser end normale programmer har. Det renser både selve tromlen, på inderside og ydersiden, samt bundkaret for alle rester af snavs, smuds og sæbe. Tromlerens programmet sikrer, at din vaskemaskine er ren og velduftende i hele sin levetid.

Kulfri motor

Vælger du en maskine med kulfri motor, får du 10 års motorgaranti (kræver at du registrerer produktet på hjemmesiden), og det giver et lavere lydniveau takket være en friktionsløs motorteknologi, der kan tilpasses præcist til de enkelte tekstilers egenskaber og styrke.

| GENERAL | |
|---------------------------------------|---------------------|
| Type | Free-Standing |
| Washing Capacity | 8 kg |
| Drying Capacity | 5 kg |
| Color | White |
| Led/Display Color | White |
| Display Type | Digital Display |
| FUNCTIONS AND DESIGN | |
| Number of Programs | 15 |
