

Free-Standing Single Door - No Freezer

SND 9700

FEATURES

- Vendbar Dør
- Foldbar vin/flaske holder
- VitaminZone
- 35 dBA

Vitamin Protection grøntsagsskuffe

En skuffe med innovativ 3-farvet lysteknologi der efterligner solens vandring på himlen gennem et døgn. Dette bevarer vitaminerne i frugt og grønsager i længere tid.

Skuffe til kød og mejeriprodukter

Ved at holde temperaturen lige over frysepunktet bevares en optimal luftfugtighed. Kød, fisk og mælkeprodukter bevarer al deres smag, friske udseende og næringsindhold i længere tid.

NoFrost / Ventilert køling

Med denne teknologi opbygges der ingen rim i fryseren, så du behøver aldrig at afrime fryseren igen. Samt et lavt strømforbrug.

Udvendigt display

Det elektroniske touch-panel på visse Blomberg-modeller gør det muligt at foretage nøjagtige temperaturindstillinger og giver adgang til en række ekstrafunktioner med et enkelt tryk. Displayet slukker automatisk så unødvendigt energiforbrug fjernes.

GENERAL

Type	Free-Standing
Capacity Fridge	365 liters
Color	White
Freezer Position	No Freezer
Cooling System Type	No Frost
Electronic Display	Basic LED Display on Door
Control System	Electronic
Display	Yes
Display Type	Tact (Membrane)
Light	LED
Door Opening Direction	Right
Reversible Door	Yes
Sliding Hinge (Built In Products)	NA
Open Door Alarm	Yes
Quick Cool	No
Eco Mode	No
Holiday Mode	No
VitaminZone	Standard
Dairy Compartment	Yes
Glas Shelves	Glass-All standard
Wine Rack Type	Foldable (Half-Width)

PERFORMANCE AND TECHNICAL INFORMATION

Energy Efficiency Class	E
Noiselevel	35 dBA
Noiselevel Class	B
Climat Class	SN-T
Dimensions (HxWxD)	186.5 x 59.7 x 70.9 cm
Plug Type	European
Cable Length	2.20 m
Energy Consumption (kWh/annum)	142.90 kWh/annum
Refrigerant	R600a
Refrigerant Charge (kg)	0.038

- Place the product on a flat surface to avoid vibration.
- Place the product at least 30 cm away from the heater, stove and similar sources of heat and at least 5 cm away from electric ovens.
- Do not expose the product to direct sunlight or keep it in damp environments.
- Your product requires adequate air circulation to function efficiently. If the product will be placed in an alcove, remember to leave at least 5 cm clearance between the product and the ceiling, rear wall and the side walls.
- Check if the rear wall clearance protection component is present at its location (if provided with the product).
If the component is not available, or if it is lost or fallen, position the product so that at least 5 cm clearance shall be left between the rear surface of the product and the wall of the room. The clearance at the rear is important for efficient operation of the product.
- When placing two coolers in adjacent position, leave at least 4 cm distance between the two units.
- Do not use extension or multi sockets in power connection.
